

## Datasheet for: AT01004

### Product Type: Autowound Transformers

1000VA 0-230-415v

|                    |                                                               |
|--------------------|---------------------------------------------------------------|
| VA                 | 1000                                                          |
| Input Voltage      | 415                                                           |
| Input Termination  | 200mm Flexible leads fitted with screw terminal block         |
| Output Voltage     | 230                                                           |
| Output Termination | 200mm Flexible leads fitted with 3way terminal block          |
| Dimension          | OD: 140 Ht: 60mm                                              |
| Weight             | 4.4kg                                                         |
| Product Type       | Autowound transformer Conforms to EN61558-2-13 CE & RoHS      |
| Fixing             | Hardware 2x 135mm Neoprene pads + steel dish washer with bolt |

Commodity code: 851539130

**RoHS Certificate:** Airlink Transformers certifies and testifies that all the products and goods delivered and invoiced, do not contain any of the hazardous substances as mentioned in the 2011/65/EU European directives (RoHS). Particularly these products do not contain: Heavy metals such as Pb, Cd, Cr6+ Bifenil Polybromurate (PBB) Ether Difenil Polybromurate (PEDE)

**Declaration of Conformity:** Airlink Transformers declare that the product AT01004 conforms to current European safety and EMC regulation EN61558-2-6 (Safety Isolating transformer) CE & RoHS compliant. Manufactured to Class A 105degC.

**Declaration by the Exporter:** The exporter of the product covered by this document declares that these products are of EU preferential origin.
