Datasheet for: AU10000

Product Type: Enclosed autowound transformers

The AU10000 is a 10000VA autowound industrial transformer in a steel case for wall or floor mounting. It runs from a 230V supply and provides a 110V output. Built in Britain by Airlink Transformers to EN61558, CE and RoHS compliant.

VA	10000
Input Voltage	230
Input Termination	3 x 8mm studs
Output Voltage	110
Product Case	P5 Grey Steel case IP23
Dimension	Ht:353 L: 350 W:242 (mm)
Weight	36kg
Surge Protection	SL35 Surge protection
Product Type	Autowound transformer Conforms to EN61558-2-13 CE & RoHS

Commodity code: 851539130

RoHS Certificate: Airlink Transformers certifies and testifies that all the products and goods delivered and invoiced, do not contain any of the hazardous substances as mentioned in the 2011/65/EU European directives (RoHS). Particularly these products do not contain: Heavy metals such as Pb, Cd, Cr6+ Bifenil Polybromurate (PBB) Ethere Difenil Polybromurate (PEDE)

Declaration of Conformity: Airlink Transformers declare that the product AU10000 conforms to current European safety and EMC regulation EN61558-2-6 (Safety Isolating transformer) CE & RoHS compliant. Manufactured to Class A 105degC.

Declaration by the Exporter: The exporter of the product covered by this document declares that these products are of EU preferential origin.
